

NATIONAL VENDOR DECLARATION (CATTLE) AND WAYBILL

C0411

This form cannot be used where eligibility for the EU market is required.

Part A To be completed by the owner or person who is responsible for the husbandry of the cattle.

Owner of cattle (FULL TRADING NAME)

Property/place where the journey commenced (ADDRESS)

(ADDRESS CONTINUED) (TOWN/SUBURB) (STATE)

Property Identification Code (PIC) of this property

This MUST be the PIC of the property that the stock is being moved from

Description of cattle

Number	Description (BREED, SEX, E.G. HEREFORD CROSS STEERS)	Brands or Earmarks (IF PRESENT OR REQUIRED)
Total		Use the Attachment Forms for consignments that require more lines to describe the stock. (See Explanatory Notes)

Consigned to (NAME OF PERSON OR BUSINESS)

(ADDRESS) (TOWN/SUBURB) (STATE)

Destination (if different) of cattle (LOCATION ADDRESS)

NLIS devices used on these cattle Number of ear tags Number of rumen devices

Details of other statutory documents relating to this movement e.g. animal health certificate

DOCUMENT TYPE NUMBER OFFICE OF ISSUE EXPIRY DATE / /20

1 Have any of the cattle in this consignment ever in their lives been treated with a hormonal growth promotant (HGP)? (Use a second document for mixed consignments.)
 Yes No

2 Have the cattle in this consignment ever in their lives been fed feed containing animal fats?
 Yes No (See Explanatory Notes)

3 Has the owner stated above owned these cattle since their birth?
 Yes No If No, how long ago were the cattle obtained or purchased?
 (If purchased at different times, tick the box corresponding to the time of the most recent purchase.)
 A. Less than 2 months B. 2-6 months C. 6-12 months D. more than 12 months

4 In the past 60 days, have any of these cattle been fed by-product stockfeeds?
 Yes No If Yes, attach a list of the by-product stockfeeds, date when last fed and a copy of an analyst's report if available.

5 In the past 6 months have any of these animals been on a property listed on the ERP database or placed under any restrictions because of chemical residues?
 Yes No If Yes, give details:

6 Are any of the cattle in this consignment still within a Withholding Period (WHP) or Export Slaughter Interval (ESI) following treatment with any veterinary drug or chemical?
 Yes No If Yes, give details: (Record additional details in question 9)
 CHEMICAL PRODUCT TREATMENT DATE / /20 WHP ESI (IF SET)

7 In the past 60 days, have any of the cattle in this consignment consumed any material that was still within a withholding period when harvested, collected or first grazed?
 Yes No If Yes, give details:
 CHEMICAL PRODUCT DATE APPLIED / /20 GRAZING WHP DATE FIRST FED/GRAZED / /20 DATE FEEDING/GRAZING CEASED / /20

8 In the past 42 days, were any of these cattle:
 a) grazed in a spray risk area; or
 b) fed fodders cut from a spray drift risk area? (See Explanatory Notes for definition of spray drift risk area.)
 Yes No If Yes Date sprayed: / /20

The LPA NVD is a vital part of your business - make sure it is complete and correct

Who is responsible for completing the LPA NVD?

- Part A:** The cattle owner or the person responsible for the husbandry of the cattle.
- Part B:** The livestock carrier.
- Part C:** The livestock agent (optional).

Who keeps the copies?

- Top sheet:** (White) goes with the cattle to the purchaser.
- Middle sheet:** (Green) goes to the carrier.
- Bottom sheet:** (Pink) stays in the book and should be kept for auditing purposes.

How do I order copies of the LPA NVD?

- Go to www.mla.com.au/nvd or
- Phone 1800 683 111

Where do I go for more information?

Go to www.mla.com.au/nvd

IF PIC IS PRE-PRINTED DO NOT CROSS OUT

Describe the breed, sex, tail tag number and brand or earmark.

Write the name of the person or business (and their address) that the cattle have been transferred to.

Write the address of where the cattle will be delivered (if different).

Use the tools provided in the LPA program to help you answer Part A with confidence.

NATIONAL VENDOR DECLARATION (CATTLE) AND WAYBILL

This form cannot be used where eligibility for the EU market is required.

Part A To be completed by the owner or person who is responsible for the husbandry of the cattle.

Owner of cattle: **David Grazier Wintergreen Pastoral Co.**

Property/place where the journey commenced: **'Wintergreen' RMB 123 Warren NSW**

Property Identification Code (PIC) of this property: **N A 1 2 3 4 5 6**

Description of cattle

Number	Description (BREED, SEX, E.G. HEREFORD CROSS STEERS)	Brands or Earmarks (IF PRESENT OR REQUIRED)
12	Angus Steers	
12	Total	

Considered by: **John Burrows, Burrows Livestock Agency**

Destination (if different from cattle): **Warren Saleyards**

Details of other statutory documents relating to this movement e.g. animal health certificate

1. Have any of the cattle in this consignment ever in their lives been treated with a hormonal growth promotant (HGP)? (Use a second document for mixed consignments.)
Yes No

2. Have the cattle in this consignment ever in their lives been fed feed containing animal fats?
Yes No (See Explanatory Notes)

3. Has the owner stated above owned these cattle since their birth?
Yes No If No, how long ago were the cattle obtained or purchased?
(If purchased at different times, tick the box corresponding to the time of the most recent purchase.)
A. Less than 2 months B. 2-6 months C. 6-12 months D. more than 12 months

4. In the past 60 days, have any of these cattle been fed by-product stockfeeds?
Yes No If Yes, attach a list of the by-product stockfeeds, date when last fed and a copy of an analyst's report if available.

5. In the past 6 months have any of these animals been on a property listed on the ERP database or placed under any restrictions because of chemical residues?
Yes No If Yes, give details:

6. Are any of the cattle in this consignment still within a Withholding Period (WHP) or Export Slaughter Interval (ESI) following treatment with any veterinary drug or chemical?
Yes No If Yes, give details: (Record additional details in question 9)

7. In the past 60 days, have any of the cattle in this consignment consumed any material that was still within a withholding period when harvested, collected or first grazed?
Yes No If Yes, give details:

8. In the past 42 days, were any of these cattle:
a) grazed in a spray risk area; or
b) fed fodders cut from a spray drift risk area? (See Explanatory Notes for definition of spray drift risk area.)
Yes No If Yes Date sprayed: / / 20

9. Additional information: see requirements in Explanatory Notes for completing this document.

Declaration

I **David Grazier 'Wintergreen' RMB 123 Warren NSW** declare that, I am the owner or the person responsible for the husbandry of the cattle and that all the information in part A of this document is true and correct. I also declare that I have read and understood all the questions that I have answered, that I have read and understood the explanatory notes, and that, while under my control, the cattle were not fed restricted animal material (including meat and bone meal) in breach of State or Territory legislation.

Signature* *David Grazier* Date* **03.05.2011**

Tel no. **02 9463 9000** Fax no. **02 9463 9111**

Part B To be completed by the person in charge of the cattle when they are being moved. Completion of this part is optional in SA and VIC.

Movement commenced: / / 20 (am/pm)

Vehicle registration number(s) *:

I am the person in charge of the cattle during the movement and declare all the information in Part B is true and correct.

Signature _____ Date / / 20 Tel no. _____

Part C Agents declaration for cattle sold at auction. (Completion of Part C is optional.)

Vendor code / No.'s _____ Agent's code _____

Stock agent company _____

Buyer's name _____ Destination PIC _____

No. of cattle purchased _____ Saleyard arrival time (am/pm) _____

Agent's signature _____ Date / / 20

Do not send cattle to slaughter if they are still within the withholding period or export slaughter interval.

Once you have correctly completed and signed this form you have met the requirement to have a livestock travel document* and declared that all livestock covered by the LPA NVD have met the LPA program requirements and animal material feeding restrictions.

The carrier should fill in Part B.

The agent may fill in Part C.

The LPA NVD is your guarantee to buyers - get it right.

© Copyright Meat and Livestock Australia 2011. The Meat and Livestock Australia logo is a registered trade mark of Meat and Livestock Australia Limited. The Livestock Production Assurance logo is a registered trademark of AUS-MEAT Limited. * The LPA NVD is for cattle, sheep and lambs, EU cattle, goats, and Bobby Calves. Travel documents (such as waybills and travelling stock statements) are required by State Governments in Western Australia, New South Wales, Tasmania and Queensland. They are optional in South Australia and Victoria. The LPA/NVD is not recognised as a legal document for stock movements in the Northern Territory.

Background

The LPA National Vendor Declaration (LPA NVD) is part of the Cattle industry's commitment to food safety and product integrity.

Waybills are required when Cattle (and other stock) are moved in the Australian Capital Territory (ACT), Northern Territory (NT), New South Wales (NSW), Queensland (QLD), Western Australia (WA), and Tasmania (TAS). Only this combined LPA NVD/waybill need be completed in these States/Territories when Cattle are being moved. The completion of Part B of this combined LPA NVD/waybill is optional in those States where waybills are not required. The Northern Territory (NT) only accepts an NT waybill as its mandatory movement document; it does not accept the LPA NVD/Waybill.

Standalone waybills will continue to be available from relevant regulatory authorities, and their use is preferable if only a waybill is required.

Producers must provide a copy of this document for all Cattle they move to another property or offer for sale or slaughter, and to request a correctly completed copy or post sale summary when buying Cattle

General

Answer all items accurately. Any false, misleading or unverified statements may result in prosecution and/or civil action. If you rely on the document to verify future claims about purchased stock, then the stock should be identifiable against their accompanying document.

The cost of any residue testing required or undertaken in response to information given on the document is a commercial matter between the vendor and buyer (except where industry funds such testing).

The document is in triplicate.

- **Top sheet:** (White) goes with the cattle to the purchaser.
- **Middle sheet:** (Green) goes to the carrier.
- **Bottom sheet:** (Pink) stays in the book and should be kept for auditing purposes.

PART A

Part A is only to be completed by the owner of the Cattle or person responsible for the husbandry of the Cattle

Address and PIC (Property Identification Code) of property/ place where the journey commenced

This LPA NVD can only be used when the cattle are being moved from the property to which the pre-printed PIC is assigned. If the stock are being moved from a different property (e.g. agistment), you should obtain an LPA NVD from the owner of the property.

If the cattle were walked to yards on another property exclusively for the purpose of loading at the commencement of this journey, do not record the PIC of the property on which the cattle were loaded.

A new LPA Cattle NVD/waybill must be completed if the cattle have been purchased and/or moved to a new property, and then despatched to a saleyard, abattoir

or other destination.

Description of Cattle

For consignments that require more lines to describe the stock, **go to the website www.mla.com.au/lpa and select the link: Attachment to the NVD/Waybill**

Ensure that the total number of Cattle being sold is put in the "Total" box.

Consigned to / Destination (If different)

Include in "Consigned to" the name of the person and/or company the cattle are being consigned to including full location address of person and/or company e.g. Mr Smith ABC Stock Agents, Town, and State.

Include in "Destination (if different)" the full location address of the destination of the cattle if they are not being sent to the location address of who the cattle are being consigned to e.g. ABC Saleyards, Town, State.

NLIS devices

Where cattle carry National Livestock Identification System (NLIS) approved Breeder or Post-breeder devices, record the number of identified animals and device type(s) in the spaces provided.

Under State/Territory law, NLIS Breeder and Post-breeder devices must not be removed until cattle are processed in an abattoir or knacker. Cattle only need one NLIS device. Never attach a second NLIS device if a NLIS device is already present. Attach NLIS devices in the right (off-side) ear.

Hormonal Growth Promotant (HGP) Status (Question 1) (If you DON'T KNOW, you must tick YES)

Only declare cattle HGP free if: (a) they were bred on your property and you know they have never been treated with HGP's or; (b) you have evidence showing that these particular cattle have never in their lives been treated with HGP's. Acceptable evidence includes an agent's post-sale summary identifying the seller and endorsed with the words 'HGP free' or a signed statement or LPA NVD from the previous owner declaring the cattle to be 'HGP free'. Otherwise, you must declare the cattle as HGP treated.

Use a separate document for the 'HGP free' cattle.

Animal Fats (Question 2) (If you DON'T KNOW, you must tick YES)

Whilst State law prohibits feeding of most animal materials to ruminants, products such as animal fats (examples include tallow) are not prohibited. However, some overseas customers for various reasons also require that beef and offal they receive be sourced from cattle that have never in their lives been fed animal fat such as tallow, which may be included in supplementary feed materials. If you answer NO to this question, ensure that you have all LPA NVDs for introduced cattle to substantiate this claim.

Ownership (Question 3) (If you DON'T KNOW, you must tick NO) When sending in stock in one lot that are both vendor bred and non vendor bred, you must either tick "No" and answer the subsequent question on how long they have been owned for or use a separate document for the vendor bred stock and the non vendor bred stock.

By-product stockfeed (Question 4) (If you DON'T KNOW, you must tick YES)

Includes any plant material not produced primarily for livestock consumption, such as waste fruit, vegetables and fibre crops including peel, pulp, pressings, stem and leaf material. (It does not include grain and grain by-products, cotton seed, oilseed meals, tallow or molasses).

Extended Residue Program (ERP) status and grazing restrictions (Question 5) (If you DON'T KNOW, you must tick YES)

Answer "Yes" if, in the past 6 months:

- The cattle have been on a property that currently has a "T" status, other than T5, allocated by a state/territory authority under the NORM program. [Note: Properties with a C (clear), R, M or T5 classification do not have an ERP status for the purposes of this question.] **OR**
- The cattle have been placed under restrictions, such as quarantine or detention, by a state/territory authority due to chemical residues that exceeded the maximum residue limit (MRL) for agvet chemicals or the maximum level (ML) for contaminants such as lead or cadmium.

Attach any relevant analysts report or letter of clearance from state authority to the original and all copies of the declaration.

Veterinary drugs and chemicals (Question 6) (If you DON'T KNOW, you must tick YES)

Veterinary drugs include chemicals administered orally, by injection or to the skin such as antibiotics, vaccines, worm and externally applied insecticides but exclude vitamin and mineral treatments.

Export Slaughter Intervals (ESIs) and Withholding Periods (WHPs) for commonly used vet chemicals that are registered for use in Cattle are listed in the table in this booklet. ESIs are the period following treatment when Cattle are unsuitable for export processing. ESIs are industry standards to ensure export requirements are met. WHPs are the period following treatment when Cattle are unsuitable for processing for consumption in Australia.

Updated ESI information is available at www.apvma.gov.au/ESI

Agricultural chemicals (Question 7) (If you DON'T KNOW, you must tick YES)

This question is important to ensure that cattle do not have unacceptable residues after consuming conventional stockfeeds, such as pasture, crop, stubble, grain or a prepared stockfeed, previously treated with agricultural chemicals. If the answer is "Yes" record all requested details in the space provided. If the cattle have consumed purchased feeds within 60 days prior to sale the vendor should answer "Yes" to this question unless they hold SAFEMEAT endorsed vendor declarations for that feed and those declarations confirm that all required WHPs have been met and/or that the feed complies with all requirements relating to chemical residues through a QA testing program. If any of the cattle consumed pasture, stubbles or failed crops previously treated with a chemical that had no grazing/ fodder WHP on the label the question should be answered "Yes" and details provided.

Spray Drift (Question 8) (If you DON'T KNOW, you must tick YES)

A spray drift risk area can exist for up to 10 weeks after any application. For endosulfan it includes all grazing land and all fodder and forage crops that at the time of application were within 750m downwind of a site treated by aerial application and 200m downwind of a site treated by ground rig. Answer yes to this question if livestock have grazed in that area following endosulfan application or for other pesticides in any **downwind mandatory no-spray zone** for protection of international trade **specified on the pesticide product label**.

Additional information (Question 9)

List any required attached documents, and attach copies of the documents to the original and all copies of the declaration. Examples of documents that could be attached include a list of by-product stockfeeds and date when last fed, analysts' reports of residue tests done on by-product stockfeeds (Question 3), or biopsy testing of cattle (Questions 4, 5, 6, and 7), letters from State authorities detailing the residue status of the cattle, details of treatments within the withholding period or Export Slaughter Interval (Question 5).

Use this section to provide other information on chemical use, animal health status, or commercial matters that are not covered specifically on the form including specific market eligibility.

Where "Russian Eligible" is written on the NVD, it means that the livestock have not been injected with or ingested feed products containing oxytetracycline and chlortetracycline in the last 90 days.

Declaration

Signing this declaration has legal significance. Regulatory authorities may take legal action, and purchasers may seek damages if any information in part A is incorrect. Before signing you must be absolutely satisfied you understand all elements of the document, and these explanatory notes.

Restricted Animal Material includes any tissue, blood or other material taken from an animal and any meals derived from animals. Examples are meat and bone meals, blood meal, fish meal, feather meal etc. It does not include tallow, gelatine or milk products. Contact your State Agriculture or Primary Industries Department for more details on these feeding restrictions.

PART B

The carrier (or drover where applicable) must complete this part and sign it. When more than one truck is carrying the cattle all vehicle registration numbers are to be recorded. If there is insufficient space to record all the vehicle registration numbers an additional document must be attached to the original and all copies. Some state regulatory authorities will require a copy of the LPA NVD/ waybill to travel with each individual vehicle. If any information is incorrect regulatory authorities may take legal action. Completion of this part is optional within South Australia and Victoria. This NVD/Waybill is valid for one journey only, e.g. from vendor's property to saleyard. A separate waybill must be completed for any subsequent journey, e.g. from saleyard to buyer's property.
