

**YARDING - 3532
LAST WEEK - 2863**

DALBY MARKET REPORT - Wednesday 4th May 2022

An increased yarding of 3532 cattle came to hand for this week's Dalby sale. The market was firm across the board with some categories slightly easier however this was reflective in the quality. The better lines of cows yarded were firm on last week with the best cows topping at 375c/kg.

Heavy steers and heifers sold to a strong market as did export feeder steers and heifers. Trade weight feeder steers were in demand this week with steers making from 580-620 c/kg. A mixed quality yarding of restocker and weaner cattle came to hand, all selling to a very competitive panel of buyers.

Light weight steers topped at over 800c/kg with plenty of sales from 720-770c/kg. Similarly in the heifer market, the better lines of heifers sold very well with the lesser quality pens selling to an easier trend. Open auction cows and calves sold very well and a line of EU PTIC Angus cows topped at \$2800.

Buyers don't miss the opportunity to look over Auctions for Friday 6th May.

NEXT SALE WEDNESDAY 11TH MAY - 5TH POSITION
