

Warrawee Angus

Warrawee Angus are getting ready with weighting for July 2023 sale and the results are pleasing! (as shown in the table below).

Warrawee Angus T01 Results

"T01 is a standout & has been since birth. The use of AI Bulls with high EBV for growth rate is an important contributing factor in T01 growth as well as his Dam which consistently produces top progeny. T01 is tracking to be well over 800 kg on sale day at only 17 months." - Gary Legg
