

YARDING - 4345
LAST WEEK - 2286

DALBY MARKET REPORT - Wednesday 24th May 2023

Dalby Combined agents yarded 4345 cattle for this week's Dalby sale. An increased yarding saw prices in all export feeder and processor sectors 5-15 cents dearer compared to last week. Heavy kill cows saw the better end of the cows making 205-232c/kg, whilst lighter kill cows saw prices 190-200c/kg with store cows selling from 165 - 190 c/kg. Good kill Bulls sold up to 287c/kg averaging from 255-270c/kg, with lighter younger feeder type bulls selling to 265-295 c/kg. Very few heavy kill steers or heifers were yarded and saw steers from 290-310 c/kgs & heifers from 265-282 c/kg.

Feeder cattle saw the market firm on last week's rates and very comparable to grid prices with heavy export feeder steers 450-480 kg sold to 335c/kg with lighter 380-430 kg steers selling to 368c/kg with increased numbers offered on last week. Trade feeder heifers were in good supply this week with quality British/Euro cross heifers making to 305c/kg with most selling between 270-290 c/kg.

Second round weaner and restocker steers saw the market 20-25 cents stronger with some very good Quality lines of local weaners coming available with most pens between 355-370 cents, however topping at 392 cents. Similarly weaner and restocker heifers were also stronger with better lines of Euro and British heifers selling to 315c/kg with the majority selling from 270-290c/kg. Across the Board things seem to have possibly levelled out. Overall a great opportunity to purchase some replacement cattle with plenty of quality and performance in them.
