

**YARDING - 3245**  
**LAST WEEK - 3690**

## **DALBY MARKET REPORT - Wednesday 21st July 2023**

Dalby Combined agents yarded 3245 cattle for this week's Dalby sale. A slight decline in numbers yarded saw prices in all export processor sectors firm, with lesser score 2 cows possibly 5-12 cents stronger compared to last week. Heavy kill cows saw the better end of the cows making 205-216c/kg, whilst lighter kill cows saw prices 185-202c/kg with store cows selling from 145 - 195 c/kg. Good kill Bulls sold up to 256c/kg averaging from 25-252c/kg, with lighter younger feeder-type bulls selling to 255-275 c/kg. Very few heavy kill steers or heifers were yarded and saw steers from 270-292 c/kgs and heifers from 245-272 c/kg. Whilst Heavy feeder classes saw prices ease 15 - 20 cents and up to 30 cents on lesser quality lines, with lighter 380-430 kg steers selling to 348c/kg with decreased numbers offered last week.

Trade feeder heifers were in fair supply this week with quality British/Euro cross heifers making to 294c/kg with most selling between 245-280 c/kg. Second-round weaner and restocker steers saw the market firm to slightly cheaper as some very good lines of weaner steers came forward with most pens between 320-335 cent. Weaner and restocker heifers struggled to hold ground with better lines of Euro and British heifers selling to 242c/kg with the majority selling from 190-225 c/kg. Across the Board export slaughter cattle appear to be stable however feeder and restocker cattle appear to be vulnerable and continue to look to be very good buying. Overall, a Great opportunity continues to purchase some replacement cattle with plenty of Quality and performance in them.
